Dear Dr. Irina M. Donnik,
Dear Dr. Vladimir N. Lomov,
Dear Ms. Olga E. Glukhovtseva,
Dear Ms. Daria A, Chernovanova,

On behalf of Dr. Takashi Nakajima, Director of Department of Planning and Coordination, NARO Japan, we sincerely appreciate your warm welcome and the kind and excellent arrangements for our visit to Russian Academy of Science and research institutes in Krasnodar from November 27 to December 2, 2017. We are grateful for the fruitful discussions during our visit to Russia.

We also thank you very much for having interest in the collaborative research on crop protection between Institute of Vegetable and Floriculture Science, NARO (NIVFS) and Russian institutes under the theme of "Investigation for occurrence of Pospiviroids in Russia and analysis of their characteristics" (*), and Academician Dr Donnik's suggestion that there are good resesarchers of potato viruses in Ural State Agrarian University.

We consulted our researcher of NIVFS who is in charge of the collaborative research project about your suggestion and we are pleased to inform you that he is very much interested in having a relationship with the resesarchers of Ural State Agrarian University.

So, we are grateful if you could let us know how we can contact the potato viruses researcher of Ural State Agrarian University.

(* Introduction of the topic was included in the presentation material that was explained by Hiroko Hatama(Furuno).)

Thank you again for your kind cooperation.
We are looking forward to hearing from you.

Warmest regards,
Hiroko Hatama(Furuno)
On behalf of Dr. Takashi Nakajima
